A NEWSLETTER OF HUMAN LIFE INTERNATIONAL

Volume XXIII, No. 1

Spring 2014

Dear Brothers in Christ,

This edition of *Seminarians for Life International Newsletter* offers an excerpt of the article “Exposing the Global Population Control,” by Dr. Brian Clowes. The complete article may be found online at www.hli.org/resources/exposing-the-global-population-control.

Dr. Clowes’s article gives an excellent overview of the primary culprit for much of the population control activity prevalent in the world today: a secret document of the U.S. government entitled “NSSM 200,” which was promulgated in 1974, one year after our infamous Supreme Court decision legalizing abortion on demand.

I hope this article gives you a better understanding of the population control agenda and that you’ll share this information with your fellow seminarians so that we can all be better equipped to face the situations that confront us.

Exposing the Global Population Control Agenda

By Brian Clowes, Ph. D.

THE FORMALIZATION OF UNITED STATES POPULATION POLICY

The United States National Security Council is the highest decision-making body on foreign policy in the United States. On December 10, 1974, it promulgated a top secret document entitled *National Security Study Memorandum 200*, also called *The Kissinger Report*. Its subject was “Implications of Worldwide Population Growth for U.S. Security and Overseas Interests.” This document, published shortly after the first major international population conference in Bucharest, was the result of collaboration among the Central Intelligence Agency (CIA), the United States Agency for International Development (USAID), and the Departments of State, Defense and Agriculture.

NSSM-200 was made public when it was declassified and was transferred to the U.S. National Archives in 1990.

Although the United States government has issued hundreds of policy papers dealing with various aspects of American national security since 1974, *NSSM-200* continues to be the foundational document on population control issued by the United States government. It therefore continues to represent official United States policy on population control.

NSSM-200 is critically important to pro-life workers all over the world, because it completely exposes the unsavory and unethical motivations and methods of the population control movement.

THE PURPOSE OF *NSSM-200*

The primary purpose of U.S.-funded population control efforts is to maintain access to the mineral resources of less-developed countries, or LDCs. *NSSM-200* says that

The U.S. economy will require large and increasing amounts of minerals from abroad, especially from less developed countries ... That fact gives the U.S. enhanced interest in the political, economic, and social stability of the supplying countries. Wherever a lessening of population pressures through reduced birth rates can increase the prospects for such stability, population policy becomes relevant to resource supplies and to the economic interests of the United States.

In order to protect U.S. commercial interests, *NSSM-200* cited a number of factors that could interrupt the smooth flow of materials from LDCs to the United States, including a large population of anti-imperialist youth, whose numbers must be limited by population control. The document identified 13 nations by name that would be the primary targets of U.S.-funded population control efforts.

According to *NSSM-200*, elements of the imple-

mentation of population control programs could include:

- the legalization of abortion;
- financial incentives for countries to increase their abortion, sterilization and contraception-use rates;
- indoctrination of children; and
- mandatory population control and coercion of other forms, such as withholding disaster and food aid unless an LDC implements population control programs.

NSSM-200 also specifically declared that the United States was to cover up its population control activities and avoid charges of imperialism by inducing the United Nations and various non-governmental organizations—specifically the Pathfinder Fund, the International Planned Parenthood Foundation (IPPF) and the Population Council—to do its dirty work.

This document, which is completely devoid of morality or ethics, has directly and inevitably encouraged atrocities and massive human rights violations in dozens of the nations of the world. Just three examples are shown below.

Peru. During the years 1995 to 1997, nearly a quarter of a million Peruvian women were sterilized as part of a program to fulfill then-president Alberto Fujimori's family planning goals. Although this campaign was called the "Voluntary Surgical Contraception Campaign," many of these procedures were obviously coerced. In fact, women whose underweight children were on government food programs were threatened with the withholding of this food if they refused to be sterilized, and others were kidnapped from their families and forcibly sterilized.

China. For many years, the United States government has funded the United Nations Population Fund (UNFPA). One of the main targets of UNFPA money is the People's Republic of China (PRC) and its widely-criticized forced-abortion and family planning program. According to its own documents, the UNFPA has donated more than \$100 million to China's population control program . . .
